

COMMUNITY RELATIONS

Contests for Students

Participation by students in any contest must be on a purely voluntary basis and at no time should such participation interfere with the instructional program of the school. In middle and high school, the policy of the National Association of Secondary School Principals relative to contests shall serve as a guide.

When students agree to participate in any activity sponsored by an outside organization, it shall be the responsibility of the sponsoring organization to manage the contest and provide the students with detailed information, instructions and rules.

At no time will students be required to participate in any contest sponsored by outside organizations.
